

$$\frac{1}{20}$$

The diagram illustrates a satellite-based network system (200). On the left, a satellite (206) is shown with three rectangular blocks representing its components. It is connected via a solid line (300) to a set of antennas (204) labeled "UPLINK SITES". These uplink sites are connected to an "OPERATIONS CENTER" (202). A dashed line (204') represents a "TERRESTRIAL LINK" connecting the operations center to a large rectangular block (208) labeled "CABLE HEADEND". Inside the cable headend block (208), there is a smaller block (214) labeled "NETWORK CONTROLLER". The cable headend (208) is connected to a "CONCATENATED CABLE SYSTEM" (210), which in turn is connected to "SET TOP TERMINALS" (220). Finally, the set top terminals (220) are connected to a "REMOTE" (900). The entire system, from the uplink sites to the remote, is enclosed within a dashed boundary (207). A lightning bolt symbol (200) is positioned near the top of the dashed boundary.
